Simple Web designs on line helps you create a simple and unique website that will help your company have web presence by placing your company on the World Wide Web.

## **Payment for Web hosting:**

Just as you pay rent monthly, yearly or 2 yearly periods for the rental use of a physical space, the same principle also applies to the hosting of a website. We have to pay a hosting company for a specific period to host your website so that your website can be viewed on the internet.

## **One year subscription:**

For ease of management of your simple web designs on line we maintain yearly hosting plans for our websites. We therefore require that you pay for web hosting of your website yearly.

## **One year subscription:**

Web hosting for your website for the first year is already included in our low cost price for the web design of your website. You will not be paying a separate fee.

## **Yearly payment of web hosting;**

Every subsequent year you will need to renew your web hosting for your website.

Cost of the renewal of your web hosting for one year and the yearly management fees for your website are included in our yearly renewal fees.

## **How much is the yearly renewal fees & what does it include?**

## **What if at any time I decide that I no longer want you to host my website?**

After the initial year of the design of your website or during any subsequent year ,if you wish to host your website with another hosting company we will require that you give us notice in writing of this intention at **least 3 months ( 90 days) before the expiration of the current term of hosting.**

We will automatically renew your domain registration and hosting and shall bill you and expect you to pay if we do not receive any notice of cancellation of your website account.
