## **Why do I need to host my website?**

Simple Web designs on line helps you create a simple and unique website that will help your company have web presence by placing your company on the World Wide Web.

Without hosting your designed website it will not be visible by any one on the internet.

## **Web Hosting:**

Web Hosting is similar to paying rent for space on the internet. You have to purchase space on the web to hold all of your website files. These files are stored on a server which allows the whole world to view your website. We upload the files of your designed website onto the server on which we have paid for hosting your website. We create our simple web designs on line packages based on the amount of space you may need.

Most of our websites being static websites do not usually have any media such as music, flash, or movies so they usually need the lowest amount of space. Please keep in mind that we can always upgrade your web hosting package if needed.

## **Payment for Web hosting:**

Just as you pay rent monthly, yearly or 2 yearly periods for the rental use of a physical space, the same principle also applies to the hosting of a website. We have to pay a hosting company for a specific period to host your website so that your website can be viewed on the internet.

For ease of management of your simple web designs on line we require that you pay for web hosting of your website yearly.

Web hosting for your website for the first year is already included in our low cost price for the web design of your website. You will not be paying a separate fee.

## **Yearly payment of web hosting;**

Every subsequent year you will need to renew your web hosting for your website.

Cost of the renewal of your web hosting for one year and the yearly management fees for your website are included in our yearly renewal fees.

## **What if at any time I decide that I no longer want you to host my website?**

After the initial year of the design of your website or during any subsequent year ,if you wish to host your website with another hosting company we will require that you give us notice in writing of this intention at least 3 months ( 90 days) before the expiration of the current term of hosting. As soon as we receive the notice we will set up the information of your website for hand over to you 30 days before the expiration of the hosting account for your website.
